Learn how to easily enhance your audio with the bundled splitter cable and companion products.

The **SB Inferno** was conceived by the design team at Sound Blaster with a vision – to create an affordable gaming headset that would take full-advantage of the audio hardware present in the gamers' system.

With decades of audio engineering know-how in our arsenal, the Sound Blaster engineering team went out and worked directly with top gamers from professional eSports teams from around the world such as Team compLexity and Team Dignitas to define the core elements of a gaming headset relevant to the era of team-based gaming.

Enter the SB Inferno, a comfortable gaming-tuned headset with **115 dB/mW** sensitivity – the most powerful in its class – designed to perform with various audio playback devices as well as to provide stellar voice communication, at a great price.

SB INFERNO: AN OVERVIEW

ARCHITECTURE

Designed For Your Comfort

- Padded ergonomic earcups and lightweight headband for fatigue-free extended gaming.

Your Gaming or Entertainment Headset

- Detachable Microphone with Flexible Boom and noise canceling condenser for clear in-game communications.

Powerful Audio Performance

- Large 40 mm Full Spectrum drivers deliver audio that is professionally tuned for.

Inline Volume Controls

- Allows easy volume adjustment while gaming.

Analog Connectivity for Your Gaming Devices

- Delivers clear and powerful gaming audio for PCs, Macs and even smart devices!

CONNECTIVITY

GAME CONSOLES

MOBILE DEVICES

Connect the SB Inferno to mobile devices with the 4-pole analog cable for powerful audio on the go.

PC/MAC

For even purer audio streaming from PCs and Macs, the SB Inferno comes bundled with a splitter cable.

CREATIVE

ESSENTIAL GAMING FEATURES

Dynamic and Powerful Audio Performance

The SB Inferno utilizes **40 mm** audio drivers with amazingly high sensitivity at **115 dB/mW** – capable of delivering the massively satisfying cinematic explosions that most gamers crave as well as the smaller detailed audio that competitive gamers listen for such as gun reloads or footsteps in an intense match.

The SB Inferno is also ideal for use with higher-end audio systems where a gamer can tune their audio experience to exactly how they want it to perform. Most entry-level gaming headsets will immediately bias themselves towards the low-end of the spectrum, which sacrifices immersion and a competitive-edge when acoustic details are lost in muddy and overdriven audio. By going with a much more linear response curve in the acoustic design, the headset is able to deliver delicate highs and thundering lows without sacrificing audio quality. It also allows room at any point of the audio spectrum for the gamer to tune the headset to their exact acoustic preferences.

Clean and Clear Voice Transmission

Everyone that plays team based games has experienced “that person” in the raid or in a match whose microphone and voice quality is far from optimal. Communication is essential in team gaming, and the SB Inferno has been designed with this aspect of gaming in mind. The removable microphone is easy to adjust and provides a clear voice signal to the sound device. No static. No confusion. More winning.

The audio quality will be even more amazing when coupled with a dedicated Sound Blaster internal sound card featuring CrystalVoice™ technologies designed specifically to eliminate unwanted background noise as well as enhance voice quality.

Durable and Lightweight Comfort

Weight and comfort are always at the top of the list in gamers' minds when it comes to seeking out a headset. The SB Inferno utilizes a lightweight yet durable plastic construction with cloth padded ear pads to provide comfort, even during the longest gaming sessions.

RECOMMENDED COMPANION PRODUCTS

Great for Gaming Audio and Much More

To ensure the widest compatibility, the SB Inferno is equipped with a 4-pole analog jack that can be connected natively to mobile devices as a headset, as well as to the bundled splitter cable for use with regular PC/Mac USB, PCIe sound cards, or motherboard host audio.

Enhance Your Experience With Other Sound Blaster Products

Experience the power of our intelligent Sound Blaster audio processing when you connect the SB Inferno to our other companion products*:

Sound Blaster E1

Enjoy a whole new level of audio detail and resolution – no matter where you are or what you're playing on – with this portable headphone amplifier. You can even share your audio experience with another friend through the dual headphone jacks without compromising audio fidelity.

Sound Blaster Play!2

Hear your enemies from further away and gain a distinct tactical advantage in combat with this USB sound card. Experience true-to-life 3D audio soundstage while giving crystal clear voice commands amid all the action.

Sound Blaster Zx

Reach unprecedented levels of audio realism, including stunning 3D surround effects, through this brilliant red high performance PCIe gaming sound card. With a 116dB Signal-to-Noise Ratio, you can be sure you're listening to only pure audio.

* The products shown here are available separately.

“ The SB Inferno meets all my gaming needs: it's really comfortable, has a mic for clear in-game communication, and of course, it delivers amazingly powerful audio. It's nothing short of impressive, and I strongly recommend it for any and every gamer.
